

Breastfeed Orange NC

Benefits for Your Baby

Reduces risk of ear infections, respiratory infections, UTIs, GI infections, SIDS, obesity, diabetes, & more.

Benefits for You

Reduces risk of type 2 diabetes, breast and ovarian cancers, reduces postpartum bleeding, & more.

Getting Started

Breastfeeding is natural, yet does not always come naturally. We're here to help!

Hold your baby skin-to-skin as much as possible. It helps build your milk supply and your confidence.

Ask for help and find support. Start early to build a strong support network.

Babies nurse for more than hunger. Nursing can soothe pain, calm fears, and comfort babies.

Nurse often. The more your baby nurses, the more milk your body will make.
